1. WELCOME AND INTRODUCTION

Rally Estonia 2020 will be special. The biggest motorsport event in the Baltics held for the 10th time is official round of FIA World Rally Championship for the first time in history. It has been our goal since the first rally in 2010 and it is a big recognition to Estonia.

This year's FIA World Rally Championship continues in circumstances we have never been before. COVID-19 pandemic has changed a lot and organizing a WRC round is different challenge. Safety has always been top priority in autosport and considering the situation we have to guarantee safety not only on the stages. FIA and WRC Promoter have prepared the guidelines for this situation and we will follow them strictly. It concerns competitors, teams, officials, media and spectators.

The government of Estonia has formed a special committee for the purpose of minimizing the risk of coronavirus at Rally Estonia. All the COVID-19 rules and restrictions in force in Estonia during Rally Estonia are observed.

We believe that by following the rules and guidelines we can host a safe and spectacular competition. We will be keeping you up-to-date on any developments, please do not hesitate to contact our key officials for any questions you may have.

Looking forward to seeing you in Estonia and stay safe!

RALLY GUIDE HAS NO REGULATORY POWER – FOR INFORMATION ONLY

Some information is pending on FIA waivers.

Information in Rally Guide can be changed and added, updates will be highlighted in future versions and published at www.rallyestonia.com

1.1 ENVIRONMENTAL POLICY

In organizing Rally Estonia, we follow an environmentally friendly way of thinking. We aim to implement the following activities and, if possible, ask our partners to follow them as well.

- We optimize human transport and use environmentally friendly solutions.
- We avoid excessive printing and, if possible, publish the materials related to the competition electronically.
- We emphasize the environmentally friendly approach and its importance in communication for spectators and participants.
- If possible, we use solutions made from recycled materials.
- Sorting of generated waste.

1.2 HISTORY OF RALLY ESTONIA

The idea to organize a new rally was born 10 years ago when Silver Kütt, a co-driver with the experience of participating in seven WRC rallies, presented his idea to his good friend, a former WRC driver Urmo Aava. After sharing the idea with a “marketing mastermind” Tarmo Hõbe, who named the new rally “Rally Estonia”, first steps were taken.

The idea that first seemed unbelievable back in 2009, has grown year by year and now the target is hosting WRC event.

The first Rally Estonia took place in 2010 and the first ever winner of the rally was a local hero Markko Märtin who has won five World Championship rallies back in his WRC career. The first two-time champion of the event was Mads Østberg, the winner Portugal WRC rally 2012, who was fastest at Rally Estonia in the years 2011 and 2012.

The high competitive level with the help and contribution of Märtin, Østberg and Latvala family raised the bar high for the organizers to keep.

From 2014 until 2016 Rally Estonia was part of the European Rally Championship (ERC) and in 2014 it was voted as the best ERC rally of the year.

Besides local stars Rally Estonia has welcomed many world top rally drivers over the years, such as WRC drivers Thierry Neuville, Esapekka Lappi, Jari-Matti Latvala, Teemu Suninen, Craig Breen, Hayden Paddon, Yazeed Al-Rajhi, Martin Prokop, Toni Gardemeister and ERC Champions Alexey Lukyanuk and Kajetan Kajetanowicz and the rising young gun Oliver Solberg who R5 class won last year.

For the last 2 years the competition has been dominated by the local heroes and current World Rally Champions Ott Tänak and Martin Järveoja.

THE CITY OF TARTU

The university city of Tartu sits on the Emajõgi river. The large student population and wealth of museums means that the city is always alive with interesting and new events to entertain you.

Come to Tartu and see the famous kissing sculpture, meet the Tartu ghost (perhaps) and use it as a base for your South Estonia explorations.

Tartu is Estonia's second largest city (population: 93 715 inhabitants) and also the oldest one in the Baltic States – first mentioned in 1030.

Tartu has always been the intellectual capital of Estonia. It is the cradle of the Estonian Song Festival, Estonian Theatre and the Estonian State. In the period Estonians call "The national awakening" Tartu was known as the Athens of the Emajõgi River ("Mother River") and until now the city has retained its intellectual and bohemian ambience.

Tartu University is one of the oldest universities in Northern Europe (founded in 1632) and has produced many eminent scientists and scholars of international repute such as Baltic German biologist Karl Ernst von Baer and famous Russian semiotician and culturologist Juri Lotman. Tartu still has a very large student population and the best time to meet them is in spring, where The Student Spring Days combine youthful exuberance with academic traditions.

Perhaps you will encounter the "Tartu Ghost" – a mysterious being that makes you spend too much time and come back to Tartu over and over again. Where does the Ghost live? Nobody knows, but you can feel its presence almost everywhere- in the city district Supilinn, ("Soup Town"), on **Toome Hill**, in the cosy little cafeterias and in the University. Local people also say that time flows slower in Tartu.

Decorated with terra cotta details, **Tartu's St. John's church** (Jaani kirik) is considered a prime example of European Gothic architecture. The nearby **St. Anthony's Court** (Antoniuse Õu) acts as a marketplace where Estonian craftsmen sell a range of goods from pottery to leather to cloth artwork.

Theatre performances, concerts, festivals, conferences happen all year round. Tartu is a hot bed of creative and scientific culture: with high quality promenade concerts, the Emajõgi River Summer theatre, the Hanseatic Days and various music events – you'll never get bored. Tartu is also home to **more than 20 museums**.

Tartu is a city for everybody- families, intellectuals, backpackers, romantic couples, people interested in culture and art- you name it! There are always reasons to come back – not least to warm up your relationship with the Tartu Ghost.

THE TOWN OF ELVA

Elva - a lovely summer resort with beautiful nature and stunning wooden architecture, is located only twenty minutes drive from Tartu and little more than two hours drive from Tallinn.

Within easy reach and well worth exploring there are beautiful natural surroundings characterized by the clear watered lakes, picturesque riverbanks, peaceful forest parks and pinewoods.

Elva is famous for its lakes, such as Verevi, Arbi and Paisjärv. These are favourite swimming spots for many.

Elva is unique to its forest parks and abundance of pines: a third of the total territory of the town lies under forest parks and nearly 90% of the trees growing there are pines.

A dominant element in Elva is the train station which today is a visitors' information center and which used to be an important trade route in the past centuries.

Detailed information on hikes on foot or by bicycle can be obtained from the visitors' information center. The Elva river, with old water mill sites and rapid banks, is popular for canoeing. In winter skiers can participate in the Tartu Marathon, belonging to the Worldloppet series. Its 60 km track from Otepää to Elva can be cycled through on mountain bikes in summer.

THE MUNICIPALITY OF OTEPÄÄ

Otepää is a small town set in the hills of south Estonia.

It is the most well-known winter sports centre in the Baltics and the Winter Capital of Estonia. Otepää got its name, which in Estonian means "bear's head" after the shape of the castle hill - which reminds you of a bear's head. It's also where in 1224, Bishop Hermann started building the first known brick castle in Estonia, The Stone Fort.

In summer you can hike along the paths of the Otepää Nature Park, see the landscape of rolling hills and lakes, romantic winding village roads and small rivers. Beautiful views open from observation towers on top of Tehvandi and Harimägi hills. You can also take part in different sports or simply have a good time at lake Pühajärve, which is a jewel among Estonian lakes. Pühajärv was also the first Estonian lake to earn the Blue Flag in 2000.

Those who believe in supernatural power should pay a visit to the so-called "energy pillar" in Otepää. It is believed that when you touch it, it will give you a great shot of energy and good health.

In wintertime Otepää is a winter sports paradise for skiers, snowmobile riders and for anyone who enjoys the snow: there are slalom slopes equipped with elevators and lots of cross-country tracks.

Tehvandi Centre is recognised as an all year round training area among high level sportsmen and Kääriku has, for more than half a century, been a favourite of Estonian winter sports fans. Otepää and its surroundings are where Estonian Olympic medalists have lived and trained.
