Each device has a unique serial number that is assigned to each crew. During the event the Rally HQ will monitor the location and speed of each crew.

11.3 "SOS" AND "OK" SIGNALLING PRINCIPLES

By pressing the "SOS" button a crew reports an accident and requests immediate assistance. Also „SOS“ sign has to be shown to following competing cars.

In case of an accident or technical problems at a Special Stage, by pressing the "OK" button a crew informs of stopping for more than 30 seconds and that immediate assistance is not required (even if a crew is trying to continue the rally).

Attention! In case of stopping at SS, the device automatically sends an "SOS" signal to the centre. If no assistance is required, the crew must press the "OK" button within 30 seconds to remove the "SOS" signal sent by the system. The crew's mobile phone must be switched on (or turned on within 60 seconds), so that the Race Control can reach the crew. Incorrect "SOS" and "OK" signal transmission will be penalised.
